

Imtech Marine is a leading company in the global maritime market, operating as a full-service provider and system integrator of tailor-made, innovative technology solutions covering the whole ship. Imtech Marine specialises in automation (platform and bridge), navigation & communication including connectivity, energy and drive solutions, HVAC (heating, ventilation and air conditioning) solutions and fire protection technology, entertainment, lighting and maritime services. Imtech Marine provides innovative systems and reliable services during the full lifetime of the ship. In 2010, Imtech Marine reached annual revenues of more than 500 million euro, employing 2,500 employees at more than 70 offices based along shipping routes and close to shipbuilding centres.

Today, the success of our company is based on

- The extensive network of service stations across the major shipping routes and outfitting stations near major shipbuilding centers in the world;
- a clear focus on our principal end-customer markets;
- and a combined portfolio of core technologies and skills.

This allows us to offer our customers real added value and better return on investment
